- ▲ **Nine adjustable compartments for optimal stability**
- ▲ **Expanding the user's reach**
- ▲ **Extra positioning of the thighs**

The Vicair Vector 02 is a pre-contoured cushion which consists of 9 individual compartments. Each compartment is designed to influence a specific area of the pelvis, striking a unique balance between preserving skin at the ischials and coccyx by re-distributing pressures, stabilizing the pelvis and positioning of the femurs. For specific needs the filling of each of the 9 compartments can be easily adjusted. Allowing you to change the density of each compartment benefitting users who: (1) Need correction or accommodation of an asymmetric pelvis. (2) Want (partial) off-loading of the ischial and coccyx area. (3) Need correction or accommodation for better thigh alignment. (e.g. abduction, one side foot propulsion, opening pelvic thigh angle).
